Ahoo!! Welcome to Mooki Island!

An island so small and mysterious, you'll never find it on any map! This wonderful place is named after the island's only inhabitants, **the Mookies!** Discover and befriend them as you explore their home.

You will come across Mookies from 5 Families: Sun ☀️, Moon 🌙, Fossil 🦕, Seashell 🐚, Leaf 🌿.

Each of these Mooki Families is ruled by a rare, unique, and **Legendary Mooki** who is bigger, kinder, and more beautiful than their fellow critters. And each of these Families has their own particular personality, which you can read all about on your **Mooki Island poster**.

Some say there is one exception to all this... It has been told that there's a Mooki who doesn't belong to any Family. Alone and jealous, living in a remote cave, this **spider-like Mooki** 🕷️ is believed to be plotting something...

GOAL OF THE GAME

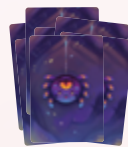

Be the player with the most Stars ⭐ at the end of the game. The Stars ⭐ are found on the **Collector Trophies**. To earn a Trophy, you have to **befriend more of that Mooki Family than your opponent** by the end of the game. But be careful or the **Spider** 🕷️ may sneak away with one of your precious Trophies!

COMPONENTS AND SETUP

Mookies

Legendary Mookies

Spiders

Mooki Collector Trophies

Mooki Island poster

Shuffle together all **36 double-sided Mooki cards** (showing **60 Mookies** – 12 from each Family, **7 Spiders** 🕷️, and **5 shiny Legendary Mookies** – 1 from each Family).

Place them in **2 more or less equal draw piles** in the centre of the table.

Place the **5 Mooki Collector Trophies** into the Trophy Stand (the bottom of the game box). (**Sun** ☀️, **Moon** 🌙, **Fossil** 🦕, **Seashell** 🐚, **Leaf** 🌿).

Keep your **Mooki Island Poster** nearby. You'll need it after your game!

GAMEPLAY

The youngest player starts and players take turns playing.

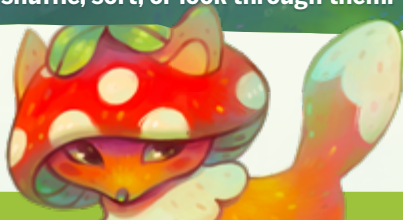

On your turn, **draw 1 card** from the top of 1 of the 2 piles. After looking at both sides of the card, **choose one side** and do the following:

- If you chose a **Mooki**, place the card on the table in front of you. That's your **Mooki Collection**. Add each new card on top of the previous one to make a single pile, with only the last-placed card visible on top.
- If you chose a **Spider** 🕷️, place it on top of your opponent's Mooki Collection pile.

Players alternate turns, adding Mookies to their Collection and Spiders to their opponent's collection.

THE MOOKI COLLECTION PILE

Your Mooki Collection pile must stay on the table at all times. You are not allowed to pick up your cards, shuffle, sort, or look through them.

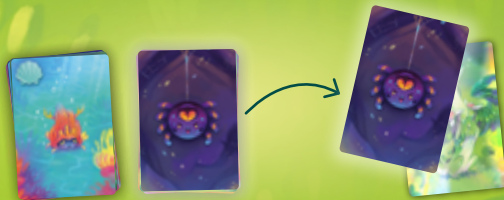

EXAMPLE

Victoria is playing against her Dad, *Robin*. She is younger (*obviously!*), so she starts.

She takes the **Fossil Mooki** 🦕. She looks at the other side of the card and finds a legendary **Leaf Mooki** 🍃! She chooses the legendary Mooki (*instead of the Fossil Mooki* 🦕) and places it in front of her.

Then *Robin* takes the **Spider** 🕷️ that was revealed when *Victoria* took her card. He looks at both sides of the card, but decides to place the **Spider** 🕷️ on top of *Victoria's* Collection pile.

It's now *Victoria's* turn again... and the game goes on.

END OF THE GAME

The game ends when the **last card in 1 of the 2 draw piles is taken** and placed in a Mookie Collection and the turn ends. **Now follow these steps:**

- 1 Each player **sorts the Mookies** they befriended (in their Collection pile) into their Families. Spiders  are collected in their own pile.

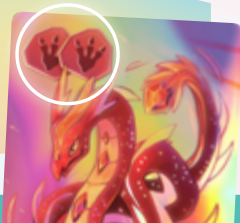

CAREFUL!

Keep all your cards on the same side. No flipping cards!

- 2 See **who has the most cards in each Mooki Family** (Legendary Mookies **count for 2 Mookies!**) and give that player the Trophy of that Mooki type. In the event of a draw, the Trophy is not awarded to anyone.
- 3 The player with **the most Spiders**  puts **one** (and only one!) of their Trophies (of their choice) back in the box. The Spider has scurried off with this Trophy, and no one can have it! If players have the same number of **Spiders** , no one loses a Trophy.
- 4 Each player **counts the Stars**  on their remaining Trophies. **The player with the most Stars**  **wins!** In the event of a draw, the youngest player wins!

LEGENDARY MOOKIES

In addition to being brilliant and majestic, **Legendary Mookies** count for **2 Mookies** at the end of the game!

EXAMPLE

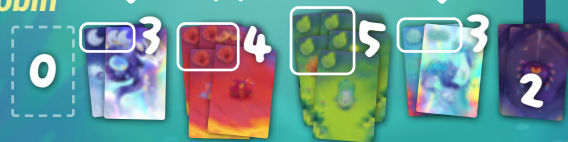

Victoria and **Robin** sort all their Mookies into their respective Families.

They count their cards to see who wins the Trophies:

Victoria

Robin

Now they look to see who has more Spiders . **Robin** has 2, and **Victoria** has 1.

The Spider  steals one of **Robin's** Trophies! He chooses to discard the Seashell Trophy .

The Final score is 6 ( ) to 4 (). **Victoria** wins!

AFTERPLAY

When your game is over... it's not really over!
Now's the time to use your **Mooki Island Poster**.
What does it do? Take a look and see!
